Bismarck, ND 58505-0020

DAIRY CATTLE

- All need a Certificate of Veterinary Inspection (CVI).
- All dairy cattle must be individually officially identified and obtain a permit number prior to entry into ND.
- All testing and identification information must be listed on the health certificate.
- Non-virgin and non-pregnant female cattle may not be imported, for breeding purposes, into ND, unless they qualify for the exemptions outlined in [North Dakota Administrative Code §48.1-05-01-02.](#)
 - Please contact our office if questions.
- All need to have been part of a whole herd negative TB test within 12 months prior to import **AND** a have a negative individual TB test within 30* days prior to import. **OR** originate for a TB accredited free herd and have a negative individual TB test within 30* days prior to import into ND.
 - Dairy cattle <60 days of age are not eligible for import unless their dam has a negative TB test within 30* days prior to importation.
- Trichomonas foetus testing required on non-virgin bulls and all bulls ≥ 24 months of age. Refer to [North Dakota Administrative Code §48.1-05-01-02.](#)
- Calves < 4 months old, including steers and spayed heifers, not accompanying dam, must include statement on the CVI "These calves are not to be resold within 60 days."

*Exemptions may be made for animals tested within 60 days.

ACCEPTABLE FORMS OF OFFICIAL ID INCLUDE:

- USDA Silver tags
- Official Brucellosis (Bangs) vaccination tags
- USDA Approved Radio Frequency Identification Tags

***Effective January 1st, 2015, registration tattoos and registration numbers will no longer be considered official ID for cattle being imported into North Dakota.**
