ANHYDROUS AMMONIA LICENSE APPLICATION

NORTH DAKOTA DEPARTMENT OF AGRICULTURE
PESTICIDE AND FERTILIZER DIVISION
SFN 18768 (11-2012)

Return This Form To:
ND Department of Agriculture
600 E Boulevard Ave Dept 602
Bismarck, ND 58505-0020
Email: reg@nd.gov
Telephone: 701-328-1500

NOTE TO APPLICANTS:

The licensing fee is $25 for an anhydrous ammonia bulk storage facility (farm/private) exceeding 6,000 gallons (22,712.47 liters) of storage capacity and $100 for each retail and storage site ($100 for combined retail and storage). The license is valid indefinitely, but may not be transferred. For a facility to sell anhydrous at retail in North Dakota, a fertilizer distributor license is required in addition to an anhydrous ammonia license.

No permanent anhydrous ammonia storage facility may be constructed after June 30, 1985, without a license issued by the Commissioner of Agriculture. Before constructing a new facility, initial approval must be obtained from the board of county commissioners in the county which the facility is to be constructed. The Department of Agriculture will submit the application to the county for signature.

Complete the applicant section and return to the address above with the appropriate fee and a property/site layout.

Applicant Name	E-Mail Address		
Company Name	Telephone Number		
Name(s) of Manager or Owner(s) (if different from applicant)	Telephone Number (if different from company)
