## Size and Weight Enforcement

BISMARCK, N.D. – Last week, troopers conducted a statewide 48-hour size and weight enforcement detail to protect our roadways. North Dakota's highway infrastructure is especially vulnerable to damage from excessive weight in the spring as the ground thaws.

During the detail, 139 overloads were detected. Troopers issued 38 size and weight citations and verified 83 permits. Eight drivers were operating without a proper permit.

Along with protecting the state's investment in roadways, these details enhance safety and ensure the motor carrier industry complies with state and federal standards, increasing safety for all motorists.
