NARRATIVE:

A Ford F250 was traveling east on I94 approximately 3 miles east of New Salem. The driver lost control of the vehicle on the ice. The vehicle spun counterclockwise entering the median while facing northwest. The passenger side tires caught on the median shoulder causing the vehicle to overturn. The Ford overturned crossing the west bound lanes. The vehicle came to rest on its top facing west along the north shoulder of the west bound lanes.

The subjects were transported to Sanford Hospital by New Salem Ambulance.
