**NARRATIVE:** The 2014 Kenworth truck tractor and trailer driven by Mr. Jacobson was eastbound on I-94 near University drive in the middle lane. Traffic ahead began to slow down due to road construction on the Minnesota side of the river and so did the 2014 Kenworth. The 2008 Chevrolet Silverado, driven by a 71 year old male, was following directly behind and did not slowdown in time, rear ending the 2014 Kenworth truck and trailer. The 2008 Chevrolet Silverado immediately started on fire. The driver and passenger of the Chevrolet were both transported to Sanford Hospital in Fargo with serious injuries. Their names and conditions will be released tomorrow to allow for family notifications.
