State Track Meet Traffic - Bismarck

NARRATIVE:

The North Dakota Highway Patrol, along with their partners at the Department of Transportation, would like to caution traveling motorists about traffic congestion on May 23-25 near I-94, exit 157 for the North Dakota State Track Meet.

With the reduced flow of traffic near exit 157 due to the Grant Marsh Bridge construction project, along with the arriving State Track meet attendees, traffic will be congested and backed up at times.

The NDHP recommends that local commuters find alternative routes and avoid that area to reduce the amount of traffic.
