Contract Date – 4/3/97
Start Date – 4/3/97
Completion Date – 7/1/97

Project Deliverables

First Draft – 5/1/97 ✓
Second Draft – 5/15/97 ✓
Final Draft – 6/1/97 ✓
Brochure Printed – 7/1/97 ✓

OBJECTIVE / STATEMENT OF WORK

The brochure, titled "Mercury and the Environment", is to be used to provide information to educate the general public, legislators, public officials and the media about mercury in our environment and the impact of mercury emissions from coal-fired power plants. The brochure includes information from two mercury studies: "Comparative Review on Emissions, Transport & Deposition of Mercury from North Dakota Lignite-Fired Power Plants", and "A Survey of Health Effects: Mercury Emissions from North Dakota Lignite-Fired Power Plants". In addition, the brochure incorporates appropriate information identified by the Lignite Research Council's Technical Advisor.

STATUS

The eight-page "Mercury and the Environment" brochure has been published by the Industrial Commission of North Dakota/Lignite Research Council under contract number LMFS-97-24. Members of the Partners for Affordable Energy coordinated copy and production of the brochure. To obtain copies of the brochure, telephone the Lignite Energy Council at (701) 258-7117.
