Instructions

Please download this Word document (available on the Industrial Commission/Outdoor Heritage Fund Program website at [http://www.nd.gov/ndic/outdoor-infopage.htm](http://www.nd.gov/ndic/outdoor-infopage.htm)) to your computer and provide the information as requested. You are not limited to the spacing provided. After completing the report, save it and attach it to an e-mail and send it to outdoorheritage@nd.gov AND print it and mail it to: North Dakota Industrial Commission, ATTN: Outdoor Heritage Fund Program, State Capitol – Fourteenth Floor, 600 East Boulevard Ave. Dept. 405, Bismarck, ND 58505. If you are unable to scan attachments, mail them with your paper copy of the report. You will be sent a confirmation by e-mail of receipt of your report and attachments. The project reports shall be provided to the Commission in both electronic and hard-copy formats with permission for unrestricted distribution. The electronic versions shall be in a suitable format for posting on the Outdoor Heritage Fund/Commission website.

Do you anticipate needing to request a grant extension? /X/ Yes / / No

If yes, please explain:

Although we have obligated 100% of the OHF’s funding for 30 CCLIP1 projects and spent more than half of those funds, we anticipate delayed completion date of some infrastructure development on remaining projects. Exceptional drought conditions have delayed well driller’s schedules. We also anticipate delayed cover crop plantings due to the drought. Remaining flexible with cooperating landowners will be imperative for successful, long term adoption of regenerative conservation practices.

*As appropriate please provide copies of receipts for purchases.*
Work Completed during Period Covered by Report:
(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

The Cover Crop & Livestock Integration Project (CCLIP) was designed to provide North Dakota farmers and ranchers with the financial assistance needed to kick-start sustainable agricultural practices that meet their operational goals and diversify their operations while improving soil health, water quality, grassland health, and wildlife habitat. Interest in the program remains very strong.

During this reporting period alone, Ducks Unlimited biologists have worked directly with more than 7 different farmers and ranchers interested in CCLIP. We are pleased to report that 100% ($625,394.90/ $625,394.90) of awarded funds are currently obligated to 30 different CCLIP agreements for grazing infrastructure and cover crop seed costs. Infrastructure development has been completed on 13 projects while the remaining 17 projects are currently underway.

Expected direct benefits of the 30 projects include enhancement of approximately 6,304.6 acres of cropland (119% of goal: 6,304.6 / 5,280) and 9,493.3 acres of adjacent grasslands (500% of goal: 9,493.3 / 1,900).

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.

Figure 1: Thanks to the North Dakota Outdoor Heritage Fund and CCLIP1, scenes like this are becoming more common. Grazing infrastructure and cover crop seed cost shared through CCLIP1 gave this Dickey County landowner the opportunity to follow a rye harvest with a full-season cover crop planting intended for 2021 fall grazing. These kinds of rotations improve plant species diversity, feed a comparatively diverse soil microbe population, reduce feed costs for cattle, improve overall soil health and functionality, and increase rest and recovery time on perennial pasture.

*As appropriate please provide copies of receipts for purchases.
Figure 2: Ducks Unlimited and cooperating landowners continue to publicly acknowledge the North Dakota Outdoor Heritage Fund’s funding of CCLIP1 projects in several ways. For example, willing landowners have placed signs like these in areas of high visibility to all passersby.

*As appropriate please provide copies of receipts for purchases.*
Figure 3: Ducks Unlimited’s team of biologists and agronomists continue to help willing landowners monitor their soil health accomplishments on CCLIP1 project sites. Here, Ducks Unlimited’s agronomist and a Logan County landowner discuss and interpret water infiltration results in a recently grazed cover crop field.

*As appropriate please provide copies of receipts for purchases.*
Figure 4: Landowners enrolled in CCLIP1 continue to be pleased with the program’s effectiveness. Regenerative agricultural practices, like the ones encouraged by North Dakota Outdoor Heritage Fund’s CCLIP1, give farmers and ranchers management flexibility. Here, cover crops and an open winter gave this landowner the opportunity to graze his cattle well into December of 2020.

*As appropriate please provide copies of receipts for purchases.
This report was prepared pursuant to an agreement with the Industrial Commission of North Dakota, which partially funded the project through the Outdoor Heritage Fund. Project participants, its subcontractors, and the Industrial Commission of North Dakota, or any person acting on its behalf, do not:

(A) Make any warranty or representation, express or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately-owned rights; or

(B) Assume any liabilities with respect to the use of, or for damages resulting from the use of, any information, apparatus, method or process disclosed in this report.
