Do you anticipate needing to request a grant extension?  /_/  Yes  /X/  No

If yes, please explain:

*As appropriate please provide copies of receipts for purchases.
Work Completed during Period Covered by Report:
(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

Since the last reporting period, one landowner impacted 220 acres with the completion of 7,760 feet of fencing to establish rotational grazing. The landowner has agreed to a 10-year non-conversion plan and is committed to maintaining the project area as grassland habitat for the duration of that period. The landowner is participating in the development of a Habitat Management Plan to assist in achieving the goals of their project.

Audubon Dakota’s Range Ecologist, Juli Bosmoe, has completed the development of Habitat Management Plans with six landowners who had removed invasive woody vegetation from their grasslands. These plans positively impact the management of 886.4 acres.

There are four projects in-progress that will be completed by the end of the grant period: two invasive woody vegetation removal, one prairie restoration, and one fencing project. Together these will impact 1,236 acres of grassland while being supported with $43,133.65 in cost-share funding.

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.

This report was prepared pursuant to an agreement with the Industrial Commission of North Dakota, which partially funded the project through the Outdoor Heritage Fund. Project participants, its subcontractors, and the Industrial Commission of North Dakota, or any person acting on its behalf, do not:

(A) Make any warranty or representation, express or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately-owned rights; or
(B) Assume any liabilities with respect to the use of, or for damages resulting from the use of, any information, apparatus, method or process disclosed in this report.

Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the Industrial Commission of North Dakota. The views and opinions of authors expressed herein do not necessarily state or reflect those of the Industrial Commission of North Dakota.

Signature of Responsible Official

*As appropriate please provide copies of receipts for purchases.
