Do you anticipate needing to request a grant extension? __/__/ Yes  /X/ No

If yes, please explain:

*As appropriate please provide copies of receipts for purchases.*
Work Completed during Period Covered by Report:
(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

The Cover Crop & Livestock Integration Project II (CCLIP2) was designed to provide North Dakota farmers and ranchers with the financial assistance needed to kick-start sustainable agricultural practices that meet their operational goals and diversify their operations while improving soil health, water quality, grassland health, and wildlife habitat. Interest in the program continues to be very strong. During this reporting period, Ducks Unlimited biologists and agronomists have worked directly with more than 12 different farmers and ranchers interested in CCLIP2. To date, a total of approximately 47% ($593,522.24 / $1,250,790.00) of awarded funds have been obligated to 34 different CCLIP2 agreements for grazing infrastructure and cover crop seeding costs. Direct benefits of the thirty projects underway include enhancement of 9,126 acres of cropland (86% of goal: 9,126 / 10,560) and 12,359 acres of adjacent grasslands (325% of goal: 12,359 / 3,800).

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.
