

Employment Policies for the State of North Dakota

Designated Medical Provider Program

Effective Date: 9/1/2020

The State Risk Management Division (RMD) and Workforce Safety & Insurance administer the State agency workers' compensation account. This allows RMD to designate health care providers to treat workplace injuries and illnesses. These providers can be individuals, clinics, hospitals, or any combination thereof. WSI may not pay for medical treatment by another provider unless a designated provider refers you or you have selected a different physician prior to injury. Emergency care is exempt from the designated provider requirement.

Employees may elect to be treated by a different provider by completing a Designated Medical Provider form available in the PeopleSoft Employee Self Service Portal prior to the occurrence of an injury.
