Team North Dakota (Team ND) is comprised of two primary position types:

- Classified employees are covered under ND’s classified state employees (civil service) and are subject to Administrative Rules adopted by the Human Resource Management Services (HRMS) division of the Office of Management and Budget (OMB). The rules guide equitable pay, open competitive selection, and protection from arbitrary personnel actions and are designed to provide consistent employment conditions. There are just over 7,200 state employees in positions classified by HRMS. Newly hired or reinstated employees in classified positions must serve a probationary period of at least six months prior to obtaining “regular” status.

- Unclassified employees do not have employment rights under HRMS. The terms and conditions of employment are at-will and vary by agency, category of employee, or by individual employee. There are about 2,000 employees in appointed, elected, temporary or otherwise designated as “unclassified” positions.

NOTE: Employees of the North Dakota University System are covered by and subject to the policies adopted by the State Board of Higher Education. There are about 6,700 employees in the University System.

**Political Activity (NDCC 34-11.1)**

Team members have the right to vote as they please without any attempt from their employer to influence their political decisions. No public employee can engage in political activities while on duty or in uniform. Some state team members whose principal employment is in an activity financed in whole or in part by federal funds are covered by the federal Hatch Act. State agencies and political subdivisions cannot restrict employees from speaking on their own behalf to any member or committee of the legislative assembly.

**Conflict of Interest**

Team members should not hold a position or serve on a board that would conflict with their employment duties with the state. Any secondary employment should be discussed with their supervisor prior to accepting in order to avoid any possible conflict. State team members may not receive remuneration in any form from an individual, business, or corporation for services rendered while acting as an agent or employee of the state.

**Technology & Security**

The state of North Dakota provides team members with the technology they need to do their jobs effectively. Team members should regularly review their agency’s computer security policies, and note that agencies may monitor team member computer activity.
PERSONNEL RECORDS
North Dakota is an open records state. Most personnel files can be viewed by the public. Some information, such as social security numbers and medical information, is confidential and cannot be released to the public.
