Census 2020: Get Involved

It’s Important. It’s Easy. It’s Safe.

Census Day is April 1, 2020. The decennial census held every 10 years is used to determine the apportionment of the U.S. House of Representatives. Census results are used to distribute approximately $1.8 billion in federal funds in North Dakota each year for roads, schools and health care.

Get involved!

The administration of the decennial census is managed by the U.S. Census Bureau. Local governments, schools, not-for-profit organizations, and the general public can follow the preparations for the 2020 Census. We can support the census by communicating the importance of the census to our residents, students, clients, neighbors, and friends.

How can people complete the census

The Census Bureau is collecting census forms in four ways:

Read the 2020 Census at a Glance

Follow the U.S. Census Bureau, How to Support the 2020 Census

Review the Census 2020 Planning Document

Learn about the Census Statistics in Schools Program

Counting for Dollars, North Dakota

Encourage Local Participation

Organize a local Complete Count Committee or host a Census Solutions Workshop

Local Complete Count Committees (CCC) are groups of members from a community who meet to brainstorm ideas and solutions to help make sure everyone in their community is counted. Information about CCCs and suggestions about how to organize a local CCC is available on the North Dakota Census Office website.
