**Appendix: Credit Features at a Glance**  
A quick reference guide to all of the credits described in this booklet............. 10-13
New Legislative Changes for 2017

Tax Incentive Good Standing Clearance
Senate Bill 2283 added a requirement that any taxpayer that applies for or claims any of the specified tax incentives listed in North Dakota Century Code § 54-35-26 must not be delinquent on any state or local tax obligation. A taxpayer which claims any of the specified income tax incentives and owns at least a fifty percent interest in real estate in North Dakota must attach to its return a Property Tax Clearance Record form as certification of good standing from each county in which the corporation and its responsible officer(s) owns at least a fifty percent interest in real estate. The instructions for each of the affected tax incentives, the Property Tax Clearance Record Form, and Schedule TC indicate which of the incentives require the form to be attached to the return.

For meeting the new requirement when applying for a specified local tax incentive, such as a Renaissance Zone incentive, the prior form “Request for Certificate of Good Standing – State Taxes Only” has been modified to accommodate other local tax incentives that now require that certification. The modified form “Request For Renaissance Zone Certificate Of Good Standing Or State Tax Clearance Record” is also available on our website.

Potential Disclosure of Deductions and Credits
To help facilitate the Legislature’s continued review of economic development tax incentives (2015 Legislature Senate Bill 2057), the 2017 Legislature passed House Bill 1354. Upon a written request from Legislative Management, the new law would allow the Tax Department to share the amount of any tax deduction or tax credit claimed or earned by a taxpayer. However, the new law does not permit the disclosure of any taxpayer’s name, federal identification number, or other confidential information.

Repeal of Tax Credits
Three separate income tax credits were repealed for tax years after 2016. House Bill 1048 repealed the income tax credit allowed to corporations for contributions to a certified nonprofit development corporation. House Bill 1049 repealed the income tax credit allowed to corporations for wages paid to a new corporation. House Bill 1050 repealed the income tax credit allowed to corporations and individuals for new investment and employment in a certified microbusiness. Therefore, these three credits no longer appear in this booklet.

Separately, the Housing Incentive Fund income tax credit expired at the end of the 2016 tax year and the Automation income tax credit is set to expire at the end of the 2017 tax year.

Angel Fund Investment Tax Credit
The income tax credit for investing in a certified angel fund was substantially changed with House Bill 1045. For investments after June 30, 2017, a corporate income tax credit is no longer available to be earned. However, any credit that was earned prior to July 1, 2017, can continue to be carried forward. The new Angel Investor income tax credit related to investments made by an angel fund into a qualified business after June 30, 2017, may only be claimed against individual income tax.
Lines 1, 2, and 3
Contributions to nonprofit private colleges, high schools and primary schools

North Dakota Century Code (N.D.C.C.) § 57-38-01.7

Tax credits are allowed for contributions to qualifying nonprofit private primary, secondary and higher education schools located in North Dakota. A separate credit is allowed for each category of school. To qualify, a contribution must be made directly to or specifically designated for the exclusive use of a qualifying school. If a contribution is made to an account, fund, or entity benefiting both qualifying and nonqualifying schools, it qualifies for the credit only if the entity provides the donor with a statement showing the amount specifically designated for the use of the qualifying school.

If a contribution is made to a qualifying school that provides education in one or more grades in both the primary school category (K through 8th grades) and secondary school category (9th through 12th grades), a separate credit is allowed for the amount contributed to each category of school. Unless the school provides the donor with a statement showing the amount specifically designated for the use of each category of school, one-half of the contribution will be deemed to have been made to each category of school. A corporation may elect to treat a contribution as having been made during a tax year if made on or before the due date, including extensions, for filing Form 40 for that tax year.

Following are the qualifying schools in each category of institutions, but can be subject to change:

Grade schools
Academy for Children (Fargo)
Anne Carlsen Center (Jamestown)
Bishop Ryan Catholic School (Minot)
Brentwood Adventist Christian School (Bismarck)
Cathedral of the Holy Spirit Elementary School (Bismarck)
Children’s Montessori Center (Fargo)
Christ the King Elem School (Mandan)
Dakota Adventist Academy (Bismarck)
Dakota Memorial School (Minot)
Dakota Montessori School (Fargo)
Forest River School (Fargo)
Grace Lutheran Elem School (Fargo)
Grand Forks Montessori Academy (GF)
Hillcrest SDA School (Jamestown)
Holy Family - St. Mary’s Elem School (GF)
Holy Spirit Elem School (Fargo)
Hope Christian Academy (Dickinson)
Invitation Adventist School (Dickinson)
Johnson Corners Christian Academy (Watford City)
Light of Christ 7th and 8th Grade Academy (Bismarck)
Little Flower Elementary School (Rugby)
Martin Luther School (Bismarck)
Missouri Valley Montessori School (Bismarck)
Nativity Elementary School (Fargo)
New Testament Baptist Christian School (Larimore)
Oak Grove Lutheran Elem School (Fargo)
Ojibwa Indian School (Belcourt)
Our Redeemer’s Christian School (Minot)
Prairie Learning Education Center (Raleigh)
Prayer Voyager Adventist School (GF)
Red River Adventist Elem School (Fargo)
Shanley High-Sullivan Middle School (Fargo)
Shiloh Christian School (Bismarck)
St. Alphonsus Elementary School (Langdon)
St. Anne Elementary School (Bismarck)
St. Ann’s Catholic School (Belcourt)
St. Bernard Mission School (Fort Yates)
St. Catherine Elem School (Valley City)
St. John’s Academy (Jamestown)
St. John’s Elementary School (Wahpeton)
St. Joseph Elementary School (Mandan)
St. Joseph Elementary School (Devils Lake)
St. Joseph’s Elementary School (Williston)
St. Mary’s Elementary School (Bismarck)
St. Michael’s Elementary School (GF)
The Innovation School (Bismarck)
Trinity Elementary East School (Dickinson)
Trinity Elementary North School (Dickinson)
Trinity Elementary School (West Fargo)
Trinity Elementary West School (Dickinson)
Trinity Jr/High School (Dickinson)
Victory Christian School (Jamestown)
Williston Trinity Christian School (Williston)

High schools
Anne Carlsen Center (Jamestown)
Bishop Ryan Catholic School (Minot)
Dakota Adventist Academy (Bismarck)
Dakota Memorial School (Minot)
Hope Christian Academy (Dickinson)
Johnson Corners Christian Academy (Watford City)
New Testament Baptist Christian School (Larimore)
Oak Grove Lutheran High School (Fargo)
Our Redeemer’s Christian School (Minot)
Prairie Learning Education Center (Raleigh)
Shanley High-Sullivan High School (Fargo)
Shiloh Christian School (Bismarck)
St. Mary’s Central High School (Bismarck)
Trinity Jr/High School (Dickinson)
Williston Trinity Christian School (Williston)

Lines 4 and 5
Geothermal, solar, wind or biomass energy device credits

N.D.C.C. § 57-38-01.8

A corporation may claim a tax credit for the cost of acquisition and installation of a geothermal, solar, wind, or biomass energy device installed before January 1, 2015.

For each contribution, attach a copy of a receipt from the nonprofit private institution or a copy of a cancelled check (front and back).
For a wind energy device only, a credit may be earned for a device installed after December 31, 2014, and before January 1, 2017, if construction commenced prior to January 1, 2015. The credit is equal to 3% of the cost of the device, each year for five years. The device must be installed in North Dakota on property owned or leased by the taxpayer.

- “Biomass energy device” means a system using agricultural crops, wastes, or residues; wood or wood wastes or residues; animal wastes; landfill gas; or other biological sources to produce fuel or electricity.

- “Geothermal energy device” means a system or mechanism or series of mechanisms designed to provide heating or cooling or to produce electrical or mechanical power, or any combination of these, by a method which extracts or converts the energy naturally occurring beneath the earth’s surface in rock structures, water, or steam.

- “Solar or wind energy device” means a system or mechanism or series of mechanisms designed to provide heating or cooling or to produce electrical or mechanical power, or any combination of these, or to store any of these, by a method which converts the natural energy of the sun or wind.

If a geothermal, solar, wind or biomass energy device is part of a system which uses other means of energy, only that portion of the total system directly attributable to the cost of the geothermal, solar, wind or biomass energy device may be included in determining the amount of the credit. The costs of installation may not include costs of redesigning, remodeling, or otherwise altering the structure of a building in which a geothermal, solar, wind or biomass energy device is installed.

For such devices installed after December 31, 2006, if ownership of the device is transferred when installation is complete and the device is fully operational, a purchaser of the device is eligible to claim the credit, rather than the installer of the device. Subsequent purchasers of the device are not eligible for the tax credit.

A corporation that holds an interest in a passsthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

Corporate taxpayers in a consolidated combined return may apply the credit against the aggregate tax liability on their North Dakota income tax return.

The credit may not exceed the corporation’s income tax liability. Any excess tax credits earned for wind energy devices installed after September 30, 2008, and before January 1, 2012, may be carried forward to each of the thirty succeeding taxable years. Any excess tax credits for geothermal, solar, or biomass energy devices installed after September 30, 2008, and wind energy devices installed after December 31, 2011, may be carried forward to each of the ten succeeding taxable years.

Enter on line 4 the tax credit for an energy device installed before January 1, 2015. Include on this line the amount of any unused credit being carried over from prior years.

Enter on line 5 the tax credit for a wind energy device installed after December 31, 2014.

A corporation may claim a tax credit for a portion of North Dakota wages paid to an individual with developmental disabilities or chronically mentally ill employee. The tax credit is 5% of up to $6,000 in wages paid to each such employee during the first twelve months of employment. The credit may not exceed 50% of the total tax liability. Only North Dakota wages actually paid during the taxable year may be considered for the tax credit. An employee of a subcontractor is considered an employee of the contractor to the extent of any wages paid under the contract.

The credit is based on the amount of qualified research expenses incurred in North Dakota in excess of the North Dakota base amount. For tax year 2017, the amount of the credit is 25% of the first $100,000 in excess of the base amount, plus 8% of the amount over $100,000 in excess of the base amount. (Note that in prior tax years, different percentages were applicable.)

For a taxpayer which first earned or claimed a credit in a tax year beginning before January 1, 2007, the maximum credit that may be earned for a taxable year is $2 million. Any credit earned in excess of $2 million may not be carried back or forward.

“Base amount” means base amount as defined in section 41(c) of the I.R.C. [26 U.S.C. 41(c)], except it does not include research conducted or sales outside the state of North Dakota.
“Qualified research” means qualified research as defined in section 41(d) of the I.R.C. [26 U.S.C. 41(d)], except it does not include research conducted outside the state of North Dakota. The qualified research expenses may not exceed 50% of the base amount.

Tax credits that exceed the current income tax liability, must be carried back for three years and then carried forward for up to fifteen years. A claim to carry back credits must be filed within three years of the due date or extended due date of the return for the taxable year in which the credit was earned.

If a taxpayer acquires or disposes of the major portion of a trade or business or the major portion of a separate unit of a trade or business in a transaction with another taxpayer, the taxpayer’s qualified research expenses and base period must be adjusted in the manner provided by I.R.C. § 41(f)(3).

There are no alternative incremental or simplified methods available for computing the North Dakota credit.

Corporate taxpayers in a consolidated combined return may apply the credit against the aggregate tax liability on their North Dakota income tax return. NOTE: This provision does not apply to tax credits received or purchased from other taxpayers (see “Line 8” below).

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

Line 8
Research and experimental expenditures credit purchased by the taxpayer

Property Tax Clearance Record Required

A taxpayer that is certified as a qualified research and development company may elect to sell, transfer or assign the unused research and experimental expenditure tax credits earned. A qualified research and development company is defined as a company that:

• is a primary sector business,
• has less than $750,000 in annual gross revenues, and
• has not previously conducted research and development in North Dakota.

For more information on the certification process or to apply for certification, contact the Director of the North Dakota Department of Commerce Division of Economic Development and Finance at 701.328.5300 or access their website at www.business.nd.gov. Certification applications may be accessed on the Department of Commerce’s website.

For the sale, transfer or assignment of the credits, the transferor and transferee must jointly submit Form CTS. Contact the Office of State Tax Commissioner for a Form CTS. The form must be filed within 30 days after the date of the transfer and is used to report the various information regarding the transaction as required by law.

• A taxpayer’s total credit assignment may not exceed $100,000 over any combination of taxable years.
• The purchaser of the tax credit shall claim the credit beginning with the taxable year in which the credit purchase agreement was fully executed by the parties.
• The original purchaser of the tax credit may not sell, assign, or transfer the credit purchased. The purchaser is not allowed to carry back any unused credits.
• If the amount of the credit available is changed as a result of an amended return filed by the transferor, or as the result of an audit conducted by the IRS or the Tax Commissioner, the transferor shall report to the purchaser the adjusted credit amount within thirty days of the amended return or within thirty days of the final determination made by the IRS or the Tax Commissioner. The tax credit purchaser is required to file amended returns reporting the additional tax due or to claim a refund. The Tax Commissioner may audit these returns and assess or issue refunds, even though other time periods prescribed may have expired for the purchaser.
• Gross proceeds received by the tax credit transferor must be assigned to North Dakota. The amount assigned cannot be reduced by the taxpayer’s income apportioned to North Dakota or any North Dakota net operating loss of the taxpayer.
• Net proceeds received by the tax credit transferor should be excluded from North Dakota taxable income on line 11 of the Form 40, Schedule SA.
• The Tax Commissioner has four years after the date of the credit assignment to audit the returns of the credit transferor and the purchaser to verify the correctness of the amount of the transferred credit and if necessary assess the credit purchaser if additional tax is found due.

Line 9
Renaissance zone credits
N.D.C.C. ch. 40-63

Property Tax Clearance Record Required

A corporation may qualify for a credit for purchasing, leasing, or making improvements to real property located in a North Dakota renaissance zone. A renaissance zone is a designated area within a city that is approved by the North Dakota Department of Commerce Division of Community Services. For more information, contact the local zone authority, the Department of Commerce Division of Community Services, or the Office of State Tax Commissioner.

If a corporation is claiming a tax credit as a result of the Renaissance Zone Act, enter the total amount of credits from the summary part of Schedule RZ and attach the Schedule RZ to the Form 40 when filed. Contact the Office of State Tax Commissioner for Schedule RZ or access the schedule on our website at www.nd.gov/tax/incentives/renaissance.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends. A copy of the statement received from the passthrough entity must be attached to the Form 40 along with the Schedule RZ.

A corporation may also be eligible to claim exempt income as a result of the Renaissance Zone Act. See Schedule RZ for more information on this exemption.
Line 10
Biodiesel or green diesel production credit
N.D.C.C. § 57-38-30.6
Property Tax Clearance Record Required
A corporation is allowed an income tax credit equal to 10% per year for five years of the direct costs incurred to adapt or add equipment to retrofit an existing facility or to construct a new facility in North Dakota to produce or blend diesel fuel containing at least 2% biodiesel or green diesel volume. “Biodiesel” means fuel meeting the specifications adopted by the American Society for Testing and Materials. “Green diesel” means a fuel produced from nonfossil renewable resources, including agricultural or silvicultural plants, animal fats, residue, and waste generated from the production, processing, and marketing of agricultural products, silvicultural products, and other renewable resources, which meets applicable American society for testing and materials specifications.

The first taxable year in which the credit may be claimed is the taxable year in which the facility begins producing or blending biodiesel or green diesel fuel. Eligible costs incurred before the taxable year in which production or blending begins are taken into account in calculating the credit.

The credit may not exceed the corporation’s tax liability in any year, but any unused portion of a taxable year’s credit may be carried forward for up to five taxable years. The maximum cumulative credit allowed to a taxpayer for all taxable years is limited to $500,000.

Line 11
Soybean and canola crushing equipment costs credit
N.D.C.C. § 57-38-30.6
Property Tax Clearance Record Required
Effective for tax years beginning after December 31, 2008, the biodiesel fuel production credit (Line 10) was amended to include direct costs incurred to adapt or add equipment to retrofit an existing facility or to construct a new facility for the purpose of producing crushed soybeans or canola. Refer to line 10 for further instructions on claiming this credit.

Line 12
Seed capital business investment tax credit
N.D.C.C. ch. 57-38.5
Property Tax Clearance Record Required
A tax credit is available to a corporation or a limited liability company treated like a corporation for its investment in a qualified business certified to participate in the seed capital investment program. The amount of the allowable credit is equal to 45% of the amount invested by the taxpayer in qualified businesses during the taxable year. The maximum annual credit a taxpayer may claim is $112,500. The maximum cumulative amount a qualified business may claim for all tax years is limited to $500,000.

For an investment to qualify it must be made on or after the date the business was certified by the North Dakota Department of Commerce for the program and must be claimed first in the taxable year in which the investment is received by the qualified business. The investment must be at risk and must remain in the business for at least three years. Investment monies placed in escrow are not at risk until paid out of escrow to the qualified business for its use.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

An angel fund organized prior to July 1, 2017, which is subject to North Dakota income tax is not eligible itself for the seed capital investment tax credit. Rather, the tax credit calculated on an angel fund’s investment must be passed through to the fund’s investors, based on their respective interests in the fund.

The amount of the allowable credit not used in the taxable year the investment was made may be carried over to the following four taxable years.

The amount of tax credits allowed for all investments made in all qualified businesses is limited to $3.5 million per calendar year.

Line 13
Biodiesel or green diesel fuel blending credit
N.D.C.C. § 57-38-01.22
Property Tax Clearance Record Required
A fuel supplier (wholesaler) licensed under North Dakota law that blends biodiesel fuel in North Dakota is entitled to an income tax credit equal to five cents for each gallon blended during the taxable year. To qualify, the biodiesel or green diesel fuel must have at least a 5% blend (“B5”). “Biodiesel” means fuel meeting the specifications adopted by the American Society for Testing and Materials. “Green Diesel” means a fuel produced from nonfossil renewable resources, including agricultural or silvicultural plants, animal fats, residue, and waste generated from the production, processing, and marketing of agricultural products, silvicultural products, and other renewable resources, which meets applicable American society for testing and materials specifications.

If the credit exceeds the tax liability, the unused portion of the credit may be carried forward for five taxable years.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.
A qualified investment may include a transfer of a fee simple interest in real property. In that case, the following conditions apply:

- Personal property that becomes a fixture to the real property after the transfer of the real property to the qualified business is not a qualified investment.
- The value of the contribution may not exceed the appraised value as established by a licensed or certified appraiser.
- The value of the contribution must be approved by the governing body of the qualified business, subject to the standards for valuing consideration for shares under North Dakota corporation law.
- The tax credit is allowed in the tax year in which the instrument transferring title to the real property is recorded with the recorder.

The tax credit must be claimed first in the taxable year in which the investment is received by the qualified business. The credit cannot exceed the taxpayer’s tax liability and any tax credit not used in the taxable year the investment was made may be carried over to the following 10 taxable years. A taxpayer is allowed no more than $250,000 in credits for all tax years under this program.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.
Line 16
Endowment fund contribution credit
N.D.C.C. § 57-38-01.21
A tax credit is available for a corporation that makes a charitable contribution to a qualified endowment fund.

Qualified endowment fund. A qualified endowment funds means a permanent, irrevocable fund that meets all of the following:

1. It is held by a qualified nonprofit organization (defined below) or by a bank or trust company on behalf of a qualified nonprofit organization.
2. It is comprised of cash, securities, mutual funds, or other investment assets.
3. It is established for a specific religious, educational, or other charitable purpose.
4. It may expend only the income generated by, or the increase in value of, the assets contributed to it.

Qualified nonprofit organization. A qualified nonprofit organization means:

1. An organization incorporated or established in North Dakota and
   • has a physical presence in North Dakota; and
   • is a tax-exempt organization under I.R.C. § 501(c) that qualifies as a charitable organization under I.R.C. § 170; or
2. An organization incorporated or established in a state bordering North Dakota that:
   • is a tax-exempt organization under I.R.C. § 501(c) that qualifies as a charitable organization under I.R.C. § 170; and
   • supports or benefits a hospital, nursing home, or medical center, or any combination of these, that is located outside North Dakota but within five miles of a North Dakota city with a population of 5,000 or more that does not have a hospital.

North Dakota taxable income must be increased by the amount of the contribution upon which the credit is computed to the extent the contribution reduced federal taxable income. If claiming the credit, enter the amount of the contribution related to the credit claimed on line 5 of the Form 40, Schedule SA.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

The credit may not exceed the taxpayer’s income tax liability. Any unused credit may be carried forward for three taxable years.

If the contribution is recovered, the tax credit must be added to tax due in the year recovery occurs. Contact our office for instructions on how to report the recovery of the contribution.

Attach a copy of the front and back of the cancelled check, or a receipt from the qualified nonprofit organization acknowledging its I.R.C. § 501(c)(1) status and the date and amount of the eligible contribution. If the credit is received through a passthrough entity, attach a copy of the statement received from the passthrough entity.

Line 17
Internship employment credit
N.D.C.C. § 57-38-01.24
Property Tax Clearance Record Required

Property Tax Clearance Record Required

A corporation who is an employer in this state may take a tax credit for qualified compensation paid to an intern employed by the taxpayer in this state.

For the internship to qualify for the credit:

• The intern must be an enrolled student in an institution of higher education or vocational technical education program, seeking a degree or certification in a major field of study closely related to the internship work experience;
• The internship must be taken for academic credit or count toward the completion of the vocational technical education program;
• The intern must be supervised and evaluated by the taxpayer; and
• The internship must be located in North Dakota.

The credit is 10% of the stipend or salary paid to the intern employed by the taxpayer and the credit cannot be claimed for more than five interns employed at the same time. A taxpayer may not claim more than $3,000 in credits for all tax years combined.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

Attach a schedule listing the names of the employees, their social security number and wages paid. If the credit is received through a passthrough entity, attach a copy of the statement received from the passthrough entity.

Line 18
Angel fund investment credit
N.D.C.C. § 57-38-01.26

Property Tax Clearance Record Required

Effective for investments made prior to July 1, 2017, a corporation is entitled to a tax credit for an investment made to a qualified angel fund which is incorporated in North Dakota.

The credit is equal to 45% of the investment and must be claimed in the year in which the investment was received by the angel fund. To be eligible for the credit, the investment must be at risk in the fund (not in escrow) for at least three years.

An angel fund must:

a. Be a partnership, limited partnership, corporation, limited liability company, limited liability partnership, trust, or estate organized on a for-profit basis which is headquartered in North Dakota.
b. Be organized for the purpose of investing in a portfolio of at least three early-stage and mid-stage private, nonpublicly traded enterprises with strong growth potential.

1) An “early-stage” entity is defined as having annual revenues up to $2 million, and a “mid-stage” entity is defined as having annual revenues from $2 million to $10 million.

2) Investments in real estate or real estate holding companies are not eligible investments by certified angel funds.

c. Consist of at least six accredited investors as defined by Securities and Exchange Commission Regulation D, rule 501.

d. Not have more than 25% of its capitalized investment assets owned by an individual investor.

e. Have at least $500,000 in commitments from accredited investors and that capital must be subject to call to be invested over an unspecified number of years to build a portfolio of investments in enterprises.

f. Be member-managed and the investor members or a designated board on which enterprises are worthy of investments.

g. Be certified as an angel fund meeting these requirements by the North Dakota Department of Commerce.

h. Be in compliance with the securities laws of North Dakota.

i. File an investment reporting form with the Office of State Tax Commissioner within 30 days after an investment is made. A copy must also be provided to the investor. The form must include: (1) the investor’s name, address, and social security number or federal employer identification number, (2) the investment amount, and (3) the investment date.

j. File a report with the Office of State Tax Commissioner within 30 days after the end of the calendar year showing the name and principal place of business in which the angel fund invested its funds.

Angel fund investors may be actively involved in the enterprises in which the angel fund invests, but the angel fund may not invest in any enterprise if any one angel fund investor owns more than 49% of the ownership interests in the enterprise.

Investors in one angel fund may not receive more than $5 million dollars in aggregate credits during the life of the angel fund, but this does not limit additional investments in that angel fund.

The aggregate annual credit which a taxpayer may claim cannot exceed $45,000. Any unused credit may be carried forward to each of the seven succeeding taxable years. For investments made on or after January 1, 2013, there is a $500,000 lifetime limit of credit per taxpayer. After June 30, 2017, a corporation may no longer earn an angel fund investment credit, but may continue to carryover any unused credit that was previously earned.

A taxpayer claiming this credit may not claim any credit otherwise available to the taxpayer as a result of an investment made by the angel fund in a business qualifying for the seed capital investment credit or the agricultural commodity processing facility investment credit.

For each contribution, attach a copy of the certification notification issued by the North Dakota Department of Commerce. A receipt from the angel fund or a copy of the cancelled check (front and back) must also be submitted.

If a corporation is an owner of a passthrough entity and received a North Dakota Schedule K-1 showing its share of an angel fund investment credit from a partnership or a limited liability company, enter only the total that, when combined with other credits claimed, will not exceed the corporation’s total tax liability. Any unused credits may be carried forward up to seven years, but only to the extent of the transferor’s unused seven year carryover period. Form CTS should be attached to the return to substantiate the purchased credit and the amount remaining to be used.

Line 19
Angel fund investment credit purchased and carried forward

N.D.C.C. § 57-38-01.26

Property Tax Clearance Record Required

Enter on this line the amount of tax credits purchased from another taxpayer in 2011 and 2012 and carried forward. Enter only the total that, when combined with other credits claimed, will not exceed the corporation’s total tax liability. Any unused credits may be carried forward up to seven years, but only to the extent of the transferor’s unused seven year carryover period. Form CTS should be attached to the return to substantiate the purchased credit and the amount remaining to be used.

Line 20
Workforce recruitment credit

N.D.C.C. § 57-38-01.25

Property Tax Clearance Record Required

A corporation that is an employer in North Dakota is entitled to a credit for costs incurred during the tax year to recruit and hire employees for hard-to-fill employment positions for which the annual salary for the position meets or exceeds the state average wage.

- “Hard-to-fill employment position” means a job that requires the employer to use extraordinary recruitment methods and for which the employer’s recruitment efforts for the specific position have been unsuccessful for six consecutive calendar months.

- “State average wage” means 125% of the state average wage published annually by Job Service North Dakota and which is in effect at the time the employee is hired.

- “Extraordinary recruitment methods” means using all of the following:
  - A person with the exclusive business purpose of recruiting employees and for which a fee is charged by the recruiter.
A credit may be claimed for 5% of the salary paid to an employee in a qualified hard-to-fill position for the first 12 consecutive months of that employee’s employment in that position. The credit may be claimed in the first tax year beginning after the employee filling the hard-to-fill position has completed their first 12 consecutive months of employment in the hard-to-fill position.

Also enter on line 20, the number of qualified employees hired to claim the credit. Any unused credit may be carried forward for four succeeding taxable years.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

To claim this credit, attach a copy of the completed Schedule ME, Credit for Wages Paid to Mobilized Employee (see www.nd.gov/tax/incentives/income) to the Form 40. If the credit is received through a passthrough entity, a copy of the statement received from the passthrough entity must be attached.

### Line 21

**Wages paid to a mobilized military employee credit**

**N.D.C.C. § 57-38-01.31**

A tax credit is available to an employer of an employee in the National Guard or a reserve component of the U.S. armed forces who is mobilized for federal active duty under Title 10 of the U.S. Code.

The credit is equal to 25% of the lesser of:

- the amount of compensation the employer continues to pay during the period of mobilization; or
- the reduction in compensation.

Reduction in compensation is defined as the excess of the amount of compensation the employer would have paid had there been no mobilization over the total military compensation paid because of the mobilization. In determining the amount of compensation the employer would have paid, the amount may include the employer’s portion of any voluntary or matching contributions paid, or that would have been paid, into a defined contribution plan. In determining the reduction in compensation, the civilian and military compensation must be compared for the same time period. If the military compensation is equal to or more than the civilian compensation, the reduction in compensation is zero and no credit is allowed.

The maximum credit allowed per eligible employee is $1,000, and the credit may not exceed the taxpayer’s income tax liability. Any unused credit may be carried forward for five taxable years.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

### Line 22

**Housing incentive fund credit carried forward**

**N.D.C.C. § 57-38-01.32 (Effective through 2016)**

For taxable years prior to 2017, a tax credit could be earned for a contribution to the Housing Incentive Fund. A credit that exceed that tax liability for the year of the contribution may be carried forward up to 10 years. Include on this line any amount of credit that is carried forward from a previous year to taxable year 2017.

Adjustment to taxable income - Your North Dakota taxable income must be increased by the amount of the contribution to the fund which generated a credit in a prior year to the extent the contribution reduced your federal taxable income in 2017. See the instructions to Form 40, Schedule SA, line 6.

### Line 23

**Automation manufacturing equipment purchase credit**

**N.D.C.C. § 57-38-01.33**

**Property Tax Clearance Record Required**

A tax credit is available to a corporation for purchases of equipment for the purpose of automating a manufacturing process. To qualify for the credit, the corporation must be certified as a primary sector business and timely file an application with the North Dakota Department of Commerce. Visit the Department of Commerce website www.commerce.nd.gov/ for application information including deadlines and includable costs. The credit includes the following provisions:

- The credit is first allowed in the tax year in which the taxpayer takes title to the machinery and equipment. For purposes of this credit, a purchase includes equipment acquired with a capital lease.
- The credit is equal to 20% of the cost of qualifying new or used equipment purchased, as approved by the Department of Commerce.
- If the credit exceeds the tax liability, the excess may be carried over for up to five years.
- The total credit allowed for all qualifying purchases by all taxpayers is limited to $500,000 for calendar year 2017. The full amount of the statewide credits available for all taxpayers was earned in 2016, so the $500,000 statewide limit
on available credits for 2017 was not increased.

- Corporate taxpayers in a consolidated combined return may apply the credit against the aggregate tax liability on their North Dakota income tax return.
- The credit is set to expire December 31, 2017, making calendar year 2017 the final year a credit may be earned.

A corporation that holds an interest in a passthrough entity that qualifies for this credit may claim its share of the tax credit in proportion to its interest in the entity. The credit must be claimed in the same taxable year in which the taxable year of the passthrough entity ends.

The Office of State Tax Commissioner issues a final notification of credit to the taxpayer. To claim this credit, attach to the return a copy of that letter indicating the amount of credit allowed to the taxpayer.

Enclose a copy of a receipt for each qualifying contribution or a cancelled check (front and back) with Form 40.

**Line 24**

**Rural leadership**

**North Dakota program contributions credit**

**N.D.C.C. § 57-38-01.34**

A tax credit is available to a corporation for contributions to the Rural Leadership North Dakota Program conducted by the NDSU Extension Service. The credit is equal to 50% of the total contributions made during the tax year. Contributions may be designated for a specific individual. Any unused credit may not be carried over to subsequent tax years.

</tbody>
</table>

**Notes**
- If more than one credit applies in a given year, apply the credits in the order that is most advantageous. Generally, this means applying the credits in the following order: (1) Credits with no carryback or carryforward feature. (2) Credits with a carryback feature. (3) Credits with a carryforward feature.
- If a credit is limited based on a percentage of the tax, apply the percentage to the tax before any credits are subtracted.
- The agricultural commodity processing facility investment credit was created in 2001, but it was not available to a C corporation until 2005.
- The seed capital business investment credit was created in 1993, but it was not available to a C corporation until 2005.
