Purpose of form

Under North Dakota Century Code (N.D.C.C.) § 57-38-31.1, a passthrough entity is required to withhold North Dakota income tax at the rate of 2.90% from a nonresident member's North Dakota distributive share of income if (1) it is \$1,000 or more and (2) it is not included in a composite return. If eligible, a nonresident member may request that an amount less than the statutory amount be withheld by completing and submitting Form PWA to the passthrough entity.

General instructions

A nonresident member is eligible to use Form PWA if any of the following apply:

- The member already paid estimated North Dakota income tax on the North Dakota distributive share of income.
- The member had additional North Dakota income tax withheld from wage income to cover the tax expected to be owed on the North Dakota distributive share of income.
- The member will have a North Dakota taxable income less than the North Dakota distributive share of income because of an offsetting North Dakota loss or adjustment to income on the member's North Dakota income tax return.

A "nonresident member" means an individual who is not domiciled in North Dakota, a trust that is not organized in North Dakota, or a passthrough entity that does not have a commercial domicile in North Dakota.

A "passthrough entity" means a partnership (all types), S corporation, trust, limited liability company not taxed as a C corporation, or other entity not taxed at the entity level for North Dakota income tax purposes.

Exemption for certain members. If the nonresident member is a passthrough entity, the member may be eligible to elect to exempt its North Dakota distributive share of income from North Dakota income tax withholding. See Form PWE for more information.

Specific instructions for nonresident member

On line 3, the North Dakota income tax paid or withheld must be for the same tax year that your North Dakota distributive share of income is reportable on your North Dakota income tax return.
